**Subject:** Avista Sale

I am writing to express my objection to the sale of Avista to HydroOne. If there is anything further I can do to make sure my opinion is considered, I would appreciate suggestions.

Thank you.

**Subject:** Avista Sale to Canadian Group

Diane,

We, would like to object to the sale of the Avista Utilities to HydroOne. We have been residents of Post Falls, for 47 years and happily are Idahoans. We live on a small income as we are seniors and receive a small amount to pay all the daily bills and the one that has gone over the top is the electrical bill.

Our electrical bill at one time was \$75 on comfort level but now has gone to double amount of \$150! Won't be long before we will have to watch our budget on that also along with the food, health care and unending items we deal with now.

Please do not allow Canada to take our power and the Power that goes with the deal. They can raise the rates to the doom of low income fellow Idahoans. Let Avista remain in the United States. Thank you for listening.

Sincerely, Joel and Mary Eatherton Post Falls, Idaho

Who gave Avista the option to sell America's energy company to Canada's HydroOne and why? Canada can later sell HydroOne to China or any country, due to international trade agreements. Then what?

It's critically important as American national security concerns that we disallow any foreign-owned corporation to own/control our energy companies, dams, electrical and natural gas infrastructure.

Being a member of the UN's Paris Accord on climate change, Canada's HydroOne can and will charge American ratepayers exorbitant prices for their green-mandated energy laws.

HydroOne is switching to unreliable and unaffordably expensive windmills and solar, both requiring labor-intensive maintenance for correct operation. Solar panels require weekly cleaning and regular batteries' replacement. Consequently, America's reliable hydroelectric-generating dams will deteriorate, ending our affordable energy.

Despite being told this sale is going through, the Idaho Public Utilities Commission can stop this imminent sale. We citizens can stop this sale if we will only do.
